1953-56 Ford F100 Swivel Floor Mount

This swivel floor mount makes installing a Flaming River tilt column in your 1953-56 Ford F100 pickup simple and attractive. The machined aluminum ball swivels for easy positioning of the column through the firewall at virtually any angle—allowing the driver to position the column and steering wheel to where it will be most comfortable for them.

This floor mount utilizes the original mounting locations in the firewall and has built-in punch outs to accommodate the stock clutch and brake pedal systems. Polished aluminum swivel ring with sandblasted back plate.

Part # FR20101F1 – 1953-56 Ford F100 Swivel Floor Mount
